

### S1 80 Mount RCD BB/TXF Cam Drive

Mounting bolt holes must be drilled.  
Bolt pattern is indicted on cover with  
drill points to allow clocking of pump.  
All configurations available.  
Requires appropriate thrust bushing  
from RCD.

Mount Configurations  
All AVIAID Mounts are  
integral to pump. No  
adapters are required.  
Separators are .16" or  
.25" wide. Mount drawings  
are full size. "Xxxx" indicates  
hex size in 1/16ths. "xXxx"  
indicates separator width (1  
= .16", 2 = .25", 5 = .50".  
"xxXX" indicates Mount #.
